

F100 Whole-House Media Air Cleaner

CLEANER INDOOR AIR

Highly Effective – Deep-pleated media filters have a large surface area to capture more airborne particles. Captures both microscopic particles like dust and smoke in addition to larger contaminants like mold spores and pet dander.

Replace Less Often – Lasts up to four times longer than a standard one-inch furnace filter. Replace every 6-12 months versus monthly or quarterly changes.

Simple Maintenance – Simply open the door to replace the filter.

Easy to Upgrade – The F100 can be easily converted to a higher-performance Electronic Air Cleaner.

Meets American Lung Association® Health House® guidelines.

Superior Performance – The F100 is up to 40 times more effective and is up to 85% more efficient at capturing airborne particles compared to a standard one-inch filter.

Whole-House – Cleans the air in all rooms throughout your home.

Widely Compatible – Works with all gas, oil and electric forced air furnaces and air conditioning systems.

Helpful Reminder – The optional wireless AirWatch™ system* reminds you when to change your filter.

*sold separately
