

FC40R High-Performance Return Grille Filter

Cleaner Air with Less Effort.

Longer lasting because you only have to change it once a year versus monthly to quarterly changes.

Superior performance that captures 15 times more 0.3-micron particles than a typical 1" fiberglass filter.

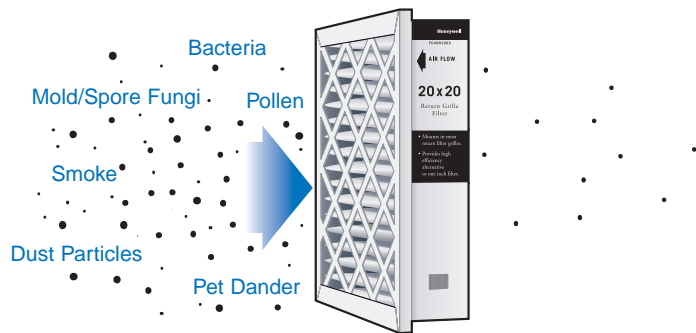

Perfect fit for most 1" residential return grilles.

Increases efficiency and puts less strain on your heating/cooling equipment.

Saves energy by reducing buildup on heat exchangers and cooling coils.

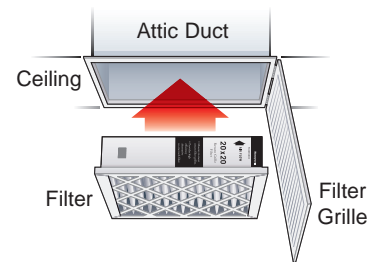

TYPICAL HOUSEHOLD PARTICLES

Honeywell FC40R air filter captures **15 times** more 0.3-micron particles than a typical 1" fiberglass filter.
